Stair suitability	:	Yes
Widths	:	4 & 5 mtr +/- 1%
Cut length service	:	Yes
Standard rug sizes	:	Yes
Bespoke rug service	:	Yes

Matching: This sample may not be from the same batch as current stocks and should be used only as a guide. Equal matching between widths can not be guaranteed.

Installation: Professional installation is recommended and essential to a good quality underlay. Avoid exposure to water and direct sunlight. Areas that might receive prolonged exposure to direct sunlight should be protected by the use of blinds or curtains.

Cleaning: Professional cleaning recommended.

Maintenance: To maintain your carpets appearance it is recommended that it is vacuumed at least three times per week to remove particles of dirt and dust.

It should be noted that overtime foot traffic will flatten the pile in main walkways causing areas of differential wear. This can cause the carpet to show areas of light and dark shading, this happens to all quality of velour carpets and would not be accepted as a basis for any complaint.

Fibre Shedding: Fibre shedding is a normal characteristic of heavy quality viscose which gets considerably reduced after initial usage.

Unique Effects: The superfine construction of Essence gives a stunning shimmering effect, where the velour surface reflects light from different angles creating different colour effects, which makes the appearance of this product unique.
